

entitled "Large Reflecting Telescopes"

The paper dealt with the large reflectors in use in America and the work done with them

The paper also described proposed improvements in the construction of mirrors on which Professors Ritchey + Chretien were making experiments.

A vote of thanks was accorded Mr. Houghton for his most interesting paper.

The Secretary was also instructed to convey the thanks of the meeting to Mr. Mackenzie for submitting Mr. King's paper - with the request that Mr. Mackenzie communicate the Society's thanks to Mr. King.

The meeting then terminated.

D. Cameron-Swan.
