

Observational Meeting
Held at the Royal Observatory (Cape 1)
on Sunday Evening February 23 1930 at 8.15 pm
By the kind invitation of His Majesty's Astronomer
S. H. Spencer Jones members assembled for observation
through the Victoria Telescope - The night unfortunately
was cloudy. Several attempts were made to observe
through breaks in the clouds, these however proved
unsatisfactory and the meeting dispersed.

At the outset Mr A W Long, thanked S. H. Spencer Jones
for affording the opportunity of observing through
the Victoria Telescope - He had been informed that
cabled advice had been received that S. H. Jones had
been elected a Fellow of the Royal Society. On behalf
of the Astronomical Society of South Africa he
tendered his congratulations. Capt Cameron Swan
& Mr H. B. Mason followed with short speeches, supporting
Mr Long.

H. B. Mason
Chairman.
