

Minutes of Committee Meeting held at the Royal  
Observatory on Wednesday 10<sup>th</sup> April 1957  
after the Ordinary meeting.

Present - Mr W.P. Hirst in the Chair, Dr Cousins, Prof. Mengies,  
Messrs Chilton, de Kock & Johnston (Hon Sec)  
Apologies from Messrs Borchers, Krumm & Linton.

The minutes of the last meeting were taken as  
read & were confirmed.

Arising therefrom the Secretary reported that Mr  
van Wijk had agreed to address the meeting on May 8.

Owing to the absence of the Treasurer it was agreed  
to postpone any discussion on finance.

It was agreed that if H.M.A. approved, the observational  
meeting be held in June. ~~As the weather at that time~~  
~~was likely to be bad, it was decided that~~ If the weather  
proved too bad for observations, a Question night would  
be held & with this in view it was agreed that an  
appeal for questions be made in the next Monthly Notes.

It was agreed that an appeal be made to the Universities  
asking for volunteers for the moonwatch.
