

As usual there was no meeting during December 1968 and January 1969. In February, the Annual Observational evening was held during which Mr Hardy, made available most of the best records for visitors to see. Tea was served to all who cared to stay.

(*) March

Meeting see next page

Minutes of the meeting held at the Royal Observatory at 8pm. on 9th April 1969

The Chairman, Mr Loggsway, presided. and as there were a very large number of members and visitors present the Chairman decided that the minutes of the previous meeting be taken as read and that no formal business should be dealt with.

Mr Hardy was then asked to present his talk on the recent Moon flight & show the picture lanterns &c.

A very interesting evening followed and Mr Hardy, prepared the vote of thanks.

Mr Loggsway thanked Mr Ran-gee for ~~coming~~ bringing his projects & equipment and showing the pictures.

All the members & guests were invited to tea.

There was no normal meeting in
 March. Dr. Wild, however, made the Department
 of Astronomy of the A.C.T. available. He
 explained the layout & workings of
 the Department and after presenting
 a representative film took members
 round the Department itself. The Tea
 was generously supplied all present.
