

Minutes of the ordinary Meeting of the Cape
Central held on 13/2/1980.

Present were the acting Chairman
Dr Dean, 28 members and 15 Visitors.

Dr Dean gave his new approach in
the form of a calendar of coming
astronomical events drawing attention to
coming occultations.

A special meeting was announced - to be
held on Wed 27th March. The guest
speaker would be a Canadian amateur
on his return home after viewing
the Feb 16th Eclipse in Central Africa
(Mr Berris).

Then Mr Grimwood then gave an interesting
slide and tape show featuring pictures
transmitted from the Voyager space
probes as they passed Jupiter.
Much is now known about cloud
movements in Jupiters Atmosphere and
about surface features of the Galilean
moons.

The meeting adjourned for tea at 9:40

Signed as correct
Booth 27/2/80.
