

20th October 1923.

Dear Mr. Long,

Enclosed I return proofs duly corrected. The printers' work is done excellently. I have noted the places for the blocks in the text and have also pasted the diagrams in their proper order and with their correct numbers on the inside of the cover. Please draw the printers' attention to the fact that in most cases the numbers on the original blocks have to be altered. Perhaps the simplest plan is for him to efface the old legend "Fig.6", say, altogether and set the correct reading "Fig.3" in ordinary type underneath the drawing.

What about the fontispiece?

With kindest regards,

Your sincerely,

L. K. Allen
