12 November 1924

Mr Spencer Jones, Esq.,  
Dear Sir

The only suggestion I would make regarding the Report received from you a few days ago, is that the Committee should be either nine, or eleven persons, not ten as proposed. This is to avoid, if possible, the Chairman having to exercise his casting vote. The difficulty could be overcome by giving one member to the S.A.A.S. I am also in favour of H. M. Astronomer being a member Ex-Officio, and do not understand Dr. Innes' remarks unless they are selfish ones. If you think the Committee is large enough as it stands, then I will support the Report as drawn up.

Yours sincerely,  
William Rie.
