

21st November 1924.

Mr. R. Long.

The last section of the draft report of the Committee appointed to consider the formation of a National Committee in Astronomy should be replaced by the attached to form the final report, which will be considered at the meeting of Council on Monday evening next.

I think this revision covers most of the suggestions which I received after circulating the draft report.

Yours sincerely,

B. Spencer Jones

Mr. R. Long, Sec.,

Downing.

Copy also sent to Mr. Reid.
