Care of God's Hope

Dear Sir,

I have to thank you very much for  
letter of 10<sup>th</sup> Dec in reply to mine  
in paper on Sun-dials. I am  
glad that you consider that such a  
brief & properly treated would be of  
interest to members, and the limit of  
space offered by you seems generous.  
I am also grateful to you for your  
reference to an English and a German  
work on the subject. Judging by the  
title of the latter I fear that it is also  
out of print.  
I have found that many amateur  
astronomers who are keen on the  
practical and descriptive aspects  
of the subject are deplorably ignorant  
of the geometrics of the sphere. A few  
years ago I found in the Highlands  
Scotland a clergyman who had

P.S.

Would the article require to be  
proved? I could have my manuscript  
proved by a legitimate writer. Must I  
omit disavowals as being too expensive  
worth?
