

17th January 1927.

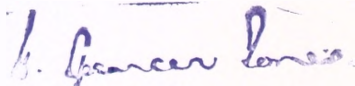

Dear Miss Troughton,

I enclose herewith copy of an appeal for more observations of occultations, which I have just received from Prof. E. W. Brown.

Now that accurate time is so easily obtainable by means of wireless and broadcast signals, there may be some members of the Association who would be willing to undertake the observations of occultations of the brighter stars with this assurance that their observations will be reduced and utilised.

I shall be glad if you will bring this to the attention of the members of the Centre, at the next meeting.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "G. G. G. G. G.", written in a cursive style.

Miss Troughton,

P.O. Box 2402,

JOHANNESBURG.
